

HOW CAN WE ASSIST? END USER & EXPRESS LICENSING

The Software and Information Technology (SIT) team manages the *Express Licensing* website, license.umn.edu, to handle high-volume licensing.

Express Licensing enables faculty to release software and other copyrighted materials in publications and provide a simple non-negotiated licensing solution to anyone wishing to use the copyright. The license.umn.edu website collects payments via credit card transactions and allows for specific pricing based on specific use cases.

The SIT team manages approved license templates that can be quickly adapted to fit the needs of the faculty.

[License.umn.edu](http://license.umn.edu) includes:

- Credit card transactions
- Online licensing
- Search engine optimization
- License managed downloads
- Template licenses result in quick license drafting
- Tiered pricing

Step 1: Send us a *Disclosure* (z.umn.edu/IPDF) or contact Chris Ghere (cghere@umn.edu)
